Cumulative GPA: 3.6/4.0

- **Relevant Coursework:** Software Development

SKILLS

Programming Languages: Java

Web: JavaScript/jQuery, HTML/CSS

Software: IntelliJ IDEA, Vim

VCS: Git

DEVELOPMENT EXPERIENCE

UGA Hacks

October 2015

ugahacks.com

- Used Clarifai's API (image recognition by machine learning) to build an application geared towards photographers to help them find images in their library by typing keywords
- Utilized Python's Tkinter GUI to build my first Python program

Hack Duke

November 2015

hackduke.org

- Created a website to track disease outbreaks based on purchases of medicine in the US
- Used HTML / CSS for front end of website, eventually used Twitter Bootstrap to style and manage content
- Gathered JSON data provided by Nessie API (Capital One) & plotted sales concentration on US map using Esri API

Free Code Camp

2015-Present

freecodecamp.com

- Learned HTML / CSS / JS / jQuery through developing sites for nonprofits

CAMPUS AND COMMUNITY INVOLVEMENT

Association of Computing Machinery Athens, GA

August 2015 - Present

- Member of the Web development and iOS development subcommittees
- Participant in hackathons such as UGA Hacks

Institute of Electrical and Electronics Engineers Athens, GA

August 2015 - Present

- Member of the Web development group
